BY THE BOARD:

The New Jersey Board of Public Utilities' (the "Board") SMARTSTART Buildings Program ("SSBP" or "SMARTSTART"), Direct Install Program and Pay-for Performance Program offer financial incentives to New Jersey property owners to encourage the installation of energy efficient products and technologies. Eligible applicants may receive incentives for a portion of the cost of installing energy efficient technologies such as lighting, HVAC, water heating or other measures in new or existing buildings.

Haglid Engineering & Associates, Inc. Edison, NJ has submitted an application for a monetary incentive in the amount of \$1,102,307 under the Pay-for-Performance program. This rebate application, Docket Number EO10050341, requests a rebate for the HVAC, Envelope and Lighting upgrades, and the Refrigeration Controls and Waste Heat Recovery System at 145 Talmage Road, Edison, NJ.

TRC, the Market Manager engaged by the Board to manage the New Jersey Clean Energy Program C&I energy efficiency programs, has submitted a certification that the incentives for which TRC now seeks approval to commit have been calculated in accordance with the program policies and procedures, and that the listed amounts are the true and accurate estimated incentives for which each applicant is eligible. Further, Applied Energy Group, in its role as the NJCEP Program Coordinator, has reviewed the application(s) and submitted a certification that the incentives for which TRC now seeks approval to commit have been calculated in accordance with the program policies and procedures, and that the listed amounts are the true and accurate estimated incentives for which each applicant is eligible. Based on the above, the Staff recommends that the Board approve the above referenced applications.

The Board HEREBY APPROVES the aforementioned applications for the incentive amounts requested and AUTHORIZES issuance of a standard commitment letter to the applicants identified above, setting forth the terms and conditions of these commitments.
